EASIER THAN WORK.

The Anti-Saloon Leaguers and professional prohibitionists have now turned their attention to the wicked racing game and are sending out the same stereotyped literature that was used in the campaign against liquor and personal liberty. These grafters incidentally make the same appeal for funds to fight "wicked racing" as they did against demon rum. Anything but work is their motto.

PAGE THE FEDERATION.

There have been nine murders in the past fourteen months without an arrest or conviction of the murderer under the present "reform" hunch in control of our municipal affairs, and the grand juries of the past two months without any assistance from the police have uncovered a reign of vice and crime without parallel in our local history. Yet there hasn't been a single protest from the Men's Federation or the few political preachers who guarded our morals under Democratic reign.

FACING CRITICAL PERIOD.

We are facing the most critical period in our nation's history—the time when, if we choose our rulers unwisely, we put the freedom of the republic in jeopardy. The secret forces that for their own selfish ends are working to tie the nation to the chariot wheels of Europe's international tricksters will leave no stone unturned to rig the Presidential campaign so that no matter how it turns out, their friends will be at the head of the poll. This is what the people must guard against if they would save the nation from disaster.

LOAN GOING WELL.

We have, up to date, received but few figures regarding the extent of subscriptions to the Irish loan in this country outside of New York. From what we can learn the loan is going well and it is expected to be a success. This could be a great blow to the Irish party in America. It would show unmistakably that the people of the United States meant what they said when they declared they were fighting to free all nations from tyranny. Here is a nation that is being held under a tyranny worse than that of the Hohenzollerns. And that tyranny will continue as long as America tolerates it.

CARSON ROUTED.

The outstanding facts in the recent Irish elections are that, upon a basis of the total number of council members elected, the Carson Unionists are not only a minority in all Ireland, but a minority in the province of Ulster. The Carsonites have only a small margin of control in Belfast itself, where they lost 30 per cent. of their former strength. From north to south of Ireland the press returns indicate that Republican groups are in control of the overwhelming majority of the local councils.

SIGNIFICANT.

The resignation of Mr. Barnes, who represented the Labor party in Lloyd George's Coalition Cabinet, is an event of more than ordinary significance. It is undoubtedly an indication that the Coalition is at the end of its tether, for certainly Barnes would not leave his post in the Cabinet if the necessity of repairing his political fences were not a pressing one. It also shows that the Coalitionists have abandoned all hope of winning out in a new election, which can not be put off very long, and Barnes, like a wise man, chooses to resume his place in the ranks of labor as the sure step to Cabinet preferment in the near future.

IRISH DRIVE.

One of the happiest features of the Irish drive for freedom is the interest taken in it and the support it is getting from the men of other races, particularly the Jews and Italians. This is a good augury of the future good understanding between those racial elements of our population. It also augurs well for the future of America, for it shows that those peoples have caught the spirit of American institutions and have an unshakable faith in our principles of government when they are ready to make a sacrifice to have those principles transplanted in another soil. The drive, we believe, is going away over the top, and Irishmen will not forget those who helped it along.

TO LOAN SHARK VICTIMS

Help Smash the Loan Shark

The Uniform Small Loan Bill (House Bill 26 and Senate Bill 16) drawn by the Russell Sage Foundation to protect the small borrower is now before the Kentucky Legislature at Frankfort.

Labor representatives admit that Kentucky money lenders violate the law and charge their victims more than 120 per cent. interest per year.

The bill makes it illegal for an unlicensed lender to charge more than six per cent. per annum on loans of \$300 or less. It authorizes licensed lenders, subject to examination by the Banking Department, to charge not more than three and one-half per cent. a month on small loans of \$300 or less, which means not over 35 cents a month on a loan of \$10.00 and not more than 88 cents per month on a loan of \$25.00 and not more than \$1.75 per month on a loan of \$50.00 and proportionately on larger amounts up to \$300.

Opponents of the bill said Tuesday that citizens of Kentucky prefer to pay the present extortionate charges of the money lenders rather than the small charge authorized by this bill.

WE DO NOT BELIEVE IT

Write to your Senator and Representative to work and vote for House Bill 26 and Senate Bill 16.

We have opened offices at 1515 Inter-Southern Building to help the victims of the loan shark, without any cost to them. We have employed lawyers who will serve free of charge.

Bring us all your papers and receipts or write to us. Tell us your story and we will get you out of the clutches of the loan shark free of expense.

PURPOSE OF ISSUE

The proceeds of this issue will be used for the purpose of establishing a modern fruit and vegetable canning factory to be located at Highland Park, near Louisville, Kentucky, on the L. & N. R. R.

LOUISVILLE HAS NO CANNING FACTORY

The horticultural district around the city has long called for such an enterprise, and the location of this city with reference to the supply of both farm and garden products, shipping facilities and markets, is a decided advantage to a canning factory.

It is estimated that approximately 2,000,000 cases of food products, packed in tin and glass containers, are shipped into Louisville yearly, which, at an average price of \$3.00 per case, amounts to \$6,000,000.00.

The Company has experienced management and contemplates starting a plant of sufficient capacity to put out 2,000 daily, or 600,000 cases annually, which, at an average price of \$3.00 per case, will amount to \$1,800,000.00, 3% on which would pay 6% on \$150,000.00 of the Preferred Stock and leave a balance of \$45,000.00 to accrue to the benefit of the Common Stock.

CARE OF SICK.

Scarcely since the old days of Red Cross sewing and bandaging activities have the women of Louisville been more interested in any one phase of Red Cross work than they have in the "home care of the sick" courses, offered by the Louisville Chapter to a representative in every household in Jefferson county at a nominal cost. A "teaching center" has been fitted up at 642 Fourth street, and more than 150 girls and women are already enrolled in classes. The course is an exceedingly practical and valuable one to the housekeeper, and particularly to the mother. Miss Mary K. Coady, head of the teaching center, has explained that it is not expected that the course in "home care of the sick" shall place those taking it in the ranks of the expert professional, but she does claim that the course of training contained in the fifteen lessons will enable a woman to deal with the practical problems of home sickness, and especially with the prevention of illness. During the month of January twelve classes in "home care of the sick" have been formed in Louisville and in the county.
